Keepsake Pendant

The Originator of the Keepsake Pendant Concept

In creating our pendant line, we had a simple purpose: to enable others to cope more easily, to hold a source of comfort in their hands and to find peace in their hearts. Our Keepsake Pendants bring memories to an even more personal level by holding a small portion of cremated remains, a lock of hair or dried ceremonial flowers. The pendants may be worn or displayed in a glass dome. Madelyn Company pendant designs include Traditional, Contemporary, and Nature series. Our line is hand-crafted in white and yellow 14K gold, crystal, titanium, sterling silver and bronze. With over 100 product choices, Madelyn Company continues to be the leader in the industry. Our style is imitated, but our quality and customer service is never duplicated. The opportunity to choose a Keepsake Pendant presents itself only once — the comfort a Keepsake Pendant offers, lasts a lifetime.

The Memory Stock

At **Sportsman's Urn** we have combined a small cylinder shaped urn with the stock of a gun to create the "Memory Stock." That special gun is used to carry the ashes of one of the most beloved people to ever grace the Great Outdoors. With the "Memory Stock" you can not only remember that special person, but you can actually have a part of them with you as you venture back into the woods, waters and fields as you have in the past. What better way to honor the passion for life that you will always share with them.

"Because some memories should last for more than just a lifetime."
